

# Colour options

To create added impact with your replacement windows and doors, just add a splash of colour!

## Woodgrains

In addition to White, we offer three woodgrain shades with our windows and doors - elegant Mahogany, warm Golden Oak and gorgeous Cherrywood.

Expressing yourself with these colours isn't limited to just one selection. For example you can specify White on the inside and your woodgrain colour of choice on the outside. So your PVC-U windows and doors will look great from every angle.

All of our colour options deliver the practical advantages of PVC-U windows - energy efficiency, security and low maintenance.

## Artisan woodgrain collection

Want to live life in full colour? Now you can do exactly that, with a bigger choice of colours for your replacement windows and doors.

13 eye-catching Artisan shades are available, gorgeous, striking colours like Green, Grey and Cream, or our sumptuous selection of woodgrains such as Rustic Cherry, Irish Oak, AnTeak and Antique Oak. You decide. Our woodgrain finishes are so fine that it's almost impossible to distinguish them from the real thing!

Specify dual colour if you want to enjoy the brightness of white on the inside frame faces and a striking colour finish on the outside. Alternatively for added impact, bring the colour indoors by opting for your chosen colour on both sides.

Our Artisan range really lets you make a design statement. Coupled with all the long-lasting quality and exceptional security of PVC-U windows and doors, it's proof that quality and beauty belong together.

The colours shown are designed as a guide to the Woodgrain and Artisan Woodgrain Collection. Before making your final decision, please ensure you have seen a foil swatch.
